Silent Auction Tips

Arrive in time to get a good look at all the items and take part in good cheer! You will be assigned an auction number. This will also be your number for the door prize drawings (you must be present to win).

Read about each item on its bid sheet and in this booklet.

Write your auction number and bid amount on the bid sheet for items you choose. *Verify all slots are full before moving to the next \$ amount.*

Check your bid often; if the slots are full you can bid again by writing a higher number in the “price” column and your auction number in the adjacent slot. Make sure you are high bidder in each slot you want to win.

The silent auction items are color coded to end either at 8:10 pm (red) or 9:25 (blue). Look for the signs and listen for the announcements.

Live Auction

(also known as “not so silent auction”)

To bid on an item, **hold up your auction number and call out (or hold up fingers) for the desired number of slots and your bid amount.**

A demonstration in the first round of live auctions will help you see how to keep track of how many slots you have.

There will be several different sessions of bidding, so pace yourself!

Payment Policy

Please pay at night of auction...bring your checkbook,
Visa, or Mastercard.

All items **MUST** be paid for by December 15, 2018.
