Every day we are engaged in a miracle  
which we don't even recognize: a blue  
sky, white clouds, green leaves, the black  
curious eyes of a child — our own two  
eyes. All is a miracle.

- Thich Nhat Hanh

*Join us for a one week program  
that invites wonder and awe.  
Participants will make a unique  
inquiry which simultaneously  
embraces the awesome truth of a  
miracles mystery and the “how and  
why” of a rational explanation.*
